

Class #10 -- 6 Apr 2017

1. Review the assignment from Class #9 to create...
 - Earthquakes on a slippy map
2. For each step (see README.md), describe what's going using API Reference
 - <https://github.com/d3/d3/blob/master/API.md>
 - <https://github.com/d3/d3-zoom>

Assignment #10

- Add earthquakes to Zoomable map tiles: <https://bl.ocks.org/mbostock/5593150>
- Choose an interesting location, default zoom, and zoom range
- Experiment with the styling to create a map like no other (in this class)
- Write a short paragraph helps your map tell a story.
